

PARTNERSHIP SOLUTIONS HIGH SCHOOL

EnCompass *Academic Intervention*, *Regents Prep*, and *Credit Recovery* programs promote academic achievement and social-emotional development for high school students, and help school and organization partners address strategic priorities.

PROGRAMS

Daytime Intervention

An EnCompass Academic Coach is paired with classroom teacher and pushes into classrooms to support learning and works with an identified caseload of students to review concepts and promote executive functioning skills. 15-20 students per AC.

Compressed Credit Recovery

Based on our successful Quest program developed in conjunction with the University of Rochester at East High School, this unique model can be tailored to meet school needs. Dedicated Site Coordinator collaborates with school staff to provide intensive academic and social-emotional support to help students recover credits and prepare to graduate. Up to 75 students.

Regents Prep

An EnCompass Academic Coach provides targeted intervention to support classroom instruction and Regents readiness. Regents prep is often done in small groups or one-on-one during school or after school and targets youth's individual needs to effectively pass the identified Regents exam. 12-15 students per AC.

HOW WE HELP

We partner with students, families, and schools to provide all children with an opportunity to succeed in school and in life.

EnCompass aligns programming and strategic support to each partner's priority areas, delivers high-quality services, and measures results.

RESULTS

22

"0 credit" freshmen earned 5 to 8.5 credits and got on track to graduate in Quest's first year (46%)

71%

Regents Prep students achieved their learning goals

75%

Students show growth in developmental assets

“

My EnCompass teachers helped me catch up, get more support, stay positive, and graduate - first in my family! School is easier when you have help.

95% report stronger connection with home, school or community

CORE ELEMENTS

Every student is empowered to succeed through:

- Individualized, data-driven learning goals
- Evidence-based and best practices
- Social-emotional skill-building
- Executive functioning support
- Certified, professional educators
- Values-based programming

PARTNERS & SITES

We work alongside 40+ partners to design and implement highly collaborative models of support and resources for more than 2,300 students. Key partners include:

- University of Rochester - East High School
- Hillside Work-Scholarship Connection
- Young Women's College Prep Charter School
- Reinvesting In Youth (RIY)

EVALUATION

We are committed to informed practices and data-driven programming, and address strengths and needs across multiple domains. Tools we use to evaluate progress and program effectiveness include:

- STAR Reading and Math
- CASEY Life Skills Assessment
- Developmental Asset Profile (DAP)
- Associate Child Rating Scale (ACRS)
