

We are here for you...

# Family Navigation

*Family Navigation is a free and voluntary program designed to help families support their children's academic and social-emotional success at home, the community, and at school.*

## **Solution-Focused and Family-Driven**

Family Navigation takes a solution-focused, family-driven approach to supporting families in identifying goals that are important to them in achieving success for their student. Families often identify basic needs, lack of resources, or missing information as barriers to success. Navigation works with families to create solutions together in partnership.

## **Partnership Building**

Family Navigation works to build partnerships with the families they serve in order to support the development of relationships with the schools they attend and communities they live in.

## **Connection Creation**

Through program events, community resource connections, and other partnerships, Family Navigation offers unique opportunities for families to engage with one another. Family Navigation also uses family feedback to create tailored programming to increase knowledge on topics like parenting, financial education, and understanding the educational system.
